

## Vaccine Safety

**David F. Maas**

**Given 20-Dec-25; Sermon #1851c**

Back on February 22, 2020, six years ago, my speaking partner for today broached a subject in his commentary, “The Pale Horse” in which he announced, “The Wuhan Laboratory in China launched a deadly virus into the atmosphere (a virus developed at the University of Chapel Hill, NC using gain of function techniques, approved by Dr. Anthony Fauci and paid for by American tax dollars).

About two weeks ago, Jeremy Hammond, citing data discovered by RFK, Jr., uncovered some salient details that the corrupt Federal Government during the previous administration had tried to conceal from the American people stating that:

On September 9, Senator Ron Johnson held a hearing on how the corruption of science has impacted public perception of vaccine safety. Testifying at the hearing was attorney Aaron Siri who has worked closely with the Informed Consent Action Network (ICAN) to get the truth out about vaccines. Mr. Siri explained how ICAN had approached Dr. Marcos Zervos at Henry Ford Health about utilizing the hospital network’s data to compare health outcomes between vaccinated and completely unvaccinated children. That’s a study the CDC has long refused to do. Dr. Zervos agreed to do it because, from his perspective, it could help put to rest parental concerns about vaccines causing chronic diseases and establish greater trust in existing vaccine policies.

But, according to Jeremy Hammond, the study did not turn out the way Zervos anticipated it. Instead of exonerating the CDC’s recommendations, the data showed vaccines to be strongly associated with allergies, asthma, developmental delay, and autoimmune disease. Overall, vaccinated children were 2.5 times more likely to develop a chronic disease than completely unvaccinated children.

Fearing that it would end his career, Zervos refused to publish the study (much like the way the Eli Lilly Company has insanely blocked research into effective safe alternatives to insulin). Zervos' cowardice is in no way speculative. The founder of ICAN (Informed Consent Action Network) Del Bigtree, documented Zervos' admission on camera as featured in the documentary film, *An Inconvenient Study*, which was released on October 12th of this year. I have provided links to this documentary film in this transcript:

[What arguments and evidence does \*An Inconvenient Study\*...](#)

[ICAN The Truth Is Out - And We're Making It Heard](#)

Siri also entered the study into the record, and it is available at the Senate's website. In response to Siri's testimony, big pharma and government cohorts went into damage control mode. The mainstream propaganda narrative is that the idea was withheld because of its findings is conspiratorial nonsense (the very same establishment trying to impeach RFK Jr. because he opposes science, which if it is I Timothy 6:20 science, falsely so-called, all of God's chosen saints should also oppose with every bit of strength God has given them).

Jerry Hammond affirms that "here is how we can know the truth." The public vaccine apologists (including the WHO, the CDC, big pharma, including the executives at Eli Lilly, Pfizer, Moderna, Johnson and Johnson) conveniently omit how the idea the study was censored, did not originate with Siri or ICAN, but is a documented admission by the Henry Ford Health researcher who headed up the study.

Secondly, the arguments used to dismiss the study as fatally flawed cannot withstand scrutiny; instead, the damage control narrative reveals an institutionalized bias whereby any studies finding vaccines to be associated with harms are dismissed as "flawed," whereas seriously flawed studies finding no association are trumpeted as yet more conclusive proof are "safe and effective." Hammond concludes that the real disinformation is coming not from the "anti-vaxxers" but from the so-called "public health" establishment which saturated the previous administration.

I am positive that if RFK Jr. would have been the counselor to the President, we would not have had to endure tyrannical government vaccine mandates, mask mandates, or criminal directives against assemblies of worship, all enforced vigorously by folks such as Gavin Newsome, Tim Walz, or James Pritzker. On December 12, eight short days ago, RFK Jr. imposed black box warning labels on all vaccines prescribed for children. A black box warning or boxed warning typically appears at the top of the medication's prescription information insert within a black border. It is the most consequential type of warning designed to inform prescribers of risks, such as life-threatening reactions, that must be carefully considered against the vaccines' so-called benefits. Some of you have no doubt have seen the ads for eczema skin care medication, whose risks include tuberculosis.

I strongly urge you to request Jeremy Hammond's free new 95-page insightful e-book, titled *The New York Times vs. Robert F. Kennedy, Jr.: How the Mainstream Media Spread Vaccine Misinformation*. When any government mandate conflicts with Almighty God's holy and spiritual laws, we, as God's loyal servants, are commanded to disobey it with our entire being.

In Acts 5:29, the apostle Paul admonishes us that if there is a conflict between God's law and a satanic government mandate, our responsibility is to embrace the priority of divine over human authority in all matters of obedience and faith. This powerful statement draws a firm clear line to obedience to God and obedience to human authorities. While God's chosen saints are generally called to respect and obey civil authorities (as seen in Romans 13:1), there are numerous instances where God's commands conflict with man's tyrannic laws, which according to my conscience includes not being able to assemble in our places of worship. "Obeying God rather than man" must serve as a guiding principle for God's people, reminding them to prioritize their relationship with God above all else, calling for discernment in navigating the complexities of faith and obedience in a troubled world where human authority too often conflicts with divine will.

As God's called out saints, we cannot forget that we are not citizens of any human government, but ambassadors of an alien government, namely the coming Kingdom of God, with our citizenship currently registered in heaven

(II Corinthians 5:20 and Philippians 3:20). As ambassadors, we do not vote in elections or participate in politics. We must absolutely hate evil and love good (Amos 5:15; Psalm 97:10; Proverbs 6:16-19; Proverbs 8:13). It is tempting to want to neutralize politicians who support infanticide, sexual mutilation of minors, and sodomy, as we have seen throughout all governments of modern Israel.

As my brother in Christ Austin Del Castillo has warned us, we cannot meddle in the plans of God who has the whole prerogative of putting leaders in office (Daniel 2:21, as well as Proverbs 16:4 which reads the Lord has made everything for its purpose, even the wicked for the day of trouble). When I hear the plethora asinine questions from the leftist, woke press corps attacking Karoline Leavitt, I must swallow my anger realizing that God is using these evil biased people to establish His ultimate purpose.

**Proverbs 16:4** The Lord has made all for Himself, yes, even the wicked for the day of doom.

The *Amplified Classic* edition provides the additional details: “The Lord has made everything [to accommodate itself and contribute] to its own end and His own purpose—even the wicked [are fitted for their role] for the day of calamity and evil.” In the meantime, we must assiduously avoid getting in the way of Almighty God’s divine purpose, leaving vengeance and justice solely in His hands.
